- 🌐 2017-2020 BCA, Christ College (Autonomous) Irinjalakuda
- 🌐 January 2023-Present, MEAN stack Developer at Luminar Technolab, kakkanad

About Me

Android Application developer who works with Android functions to create innovative apps. Aim to work in a challenging work environment where I can utilize my expertise in resolving the problems in test-plans and advocate my analytical skills towards the growth of the organization. I have a strong desire to devote myself to the tasks at hand and to track and review my progress in a responsible way until the task is completed.

Projects Undertaken:

Purchasing App for the Blind people

Duration: 3 months (2020)

Environment: **Android**

Name: **D-Specs** (Digital-Specs)

In my project I used deep learning techniques to handle the services provided to blind people. Used **TTS engine** to read out, Firebase as the database and camera for reading the barcode which we specially implemented for supermarket products with a notifiable mark to understand the position of barcode. To purchase by hearing and giving response with the **touch gestures and haptic alerts** for fully convinced payment options for easy purchase.

Experience:

Freelance Android Developer

🌐 1. Lifestyle Application

Duration: 3 months

Environment: **Android**

Name: **CMI Devamatha**

Lifestyle application made for CMI religious community. News, updates, messages and data are manipulated with Firebase. Cloud messaging services provided. Made a PHP crud functionality to enter the data to **Firestore** by creating an admin-side website with **PHP, html and CSS**. Used Calendar services and in app messaging with Firebase.

available on Play store

🌐 2. Lifestyle Application

Duration: 3 months

Environment: **Android**

Name: **Canisius CMI**

Lifestyle application made for CMI religious community. Media files and messages are showed with Firebase. Cloud messaging services provided. Made a PHP crud functionality to enter the data to Firestore by creating an admin-side website with **PHP, html and CSS**. Created as a simple application without data manipulation.

available on Play store

Declaration: I hereby declare that all the facts given above are true and correct to the best of my knowledge
